THE **9th** EDITION

POSTSHOW 2018

SHOW SUMMARY

The 9th edition of the International Beirut Energy Forum welcomed 1340 energypreneurs from all over the world in a very special event held under the High Patronage of HE. General Michel Aoun President of the Lebanese Republic. The synergy that the International Beirut Energy Forum has gained throughout the years, has made this event a landmark for the sustainable energy sector, a lighthouse for development, dialogue, hope, and progress.

We would like to take this opportunity to thank all involved in the forum, particularly our supporters, partners, sponsors, exhibitors, speakers, delegates and else, without whom the show would not have been possible.

Organized by MCE Group and In strategic partnership with the Lebanese Center for Energy Conservation, The IBEF 2018 witnessed a growth in all areas compared to last year's edition. This is due to the fact that whether through national partnerships and initiatives, or through regional cooperation and international collaboration, Lebanon is contributing to the positive momentum of sustainable energy.

The stimulating business-focused atmosphere was clearly felt by all during the three-day event with the announcement of several bids in the renewable energy sector making the International Beirut Energy Forum 2018 the most successful edition thus far for exhibitors and delegates alike.

The 9th edition of the congress presented parallel conferences and 12 events in one event for Lebanese, regional and international organizations.

The 2018 edition of the International Beirut Energy Forum will continue its legacy as the leading event in the region related to renewable energy and energy efficiency offering a national and regional platform for individuals, engineers, bankers, decision makers, corporations, universities, and even states and governments to share experiences, to develop right policies and reliable technical solutions for the bright future of our planet.

This post-show report summarizes the 2018 event and demonstrates how the show has grown and outlines the strategies used to deliver and expand the event for the future. If you are already involved with the International Beirut Energy Forum as an exhibitor, visitor or delegate, we would like to thank you for your continued support in making it such a great success.
